mobilise your research career

EURAXESS Researchers in Motion!

This one-of-a-kind initiative brought to you by ERA provides European and non-European researchers with all the information and support services they need to follow an international research career - within Europe and further afield. From access to job offers and employers, to relocation advice and support, EURAXESS offers it all.

To promote EURAXESS, the **EURAXESS Roadshow** is now on tour and coming to a town near you! With **29 stops in 22 countries**, the Roadshow will be providing **students and young researchers** across Europe with the opportunity to mobilise their research careers by trying out EURAXESS.

For live info, dates and locations check out **EURAXESS.OnTour on Facebook** and **@EURAXESS_OnTour on Twitter**.

At the **bus stop** you will have direct access to information terminals and EURAXESS professionals, ready to talk you through the **awesome services available** and how to use them to get your career moving.

In order to provide that extra special boost to your CV, there will be a **professional CV photographer** available on the bus and the EURAXESS Jobs Portal where you can upload your CV thus making it ready for employers to find.

There will be **interactive sessions** such as workshops with experts, discussion sessions, and science slams taking place near-by, jam-packed with info on job-hunting, careers, mobility, funding and more! **Visit the Facebook page or ask at the bus for the workshop location and timetable.**

Join the tour! Connect via Facebook and Twitter:

What EURAXESS can do for you

1

Find a job!

Post your CV on the **EURAXESS Jobs** portal so over 7 500 research organisations, funders and companies can see it. There are thousands of job offers and fellowships across a range of research fields for you to search through, in European countries as well as further afield.

2

Get support!

When you land that international job, **EURAXESS Services** is on-hand to help you relocate. There are more than 260 EURAXESS Service centres in 40 countries, who know everything there is to know about things like tax, social security, finding accommodation and access to local health care.

3

Help you choose!

Meanwhile **EURAXESS Rights** is busy promoting researchers working conditions wherever you work in Europe. Look out for the HR Excellence in Research logo when job-hunting.
