

Doctoral School of Pharmaceutical Sciences
Complex exam - Main subjects

1. Bioanalysis
2. Biopharmaceutics
3. Biotechnology
4. Clinical pharmacology of anticancer agents
5. Clinical pharmacology of analgesics
6. Pharmacobotany
7. Pharmacognosy
8. Pharmacokinetics-drug metabolism
9. Pharmacology
10. Phytochemistry
11. Phytotherapy
12. Pharmacology of the gastrointestinal tract
13. Pharmaceutical chemistry
14. Pharmaceutical microbiology
15. Medicinal chemistry
16. Pharmaceutical technology
17. Pharmacy administration
18. Colloidics
19. Pharmacology of calcium and bone metabolism
20. Cardiovascular pharmacology and therapy
21. Clinical pharmacy
22. Public health
23. Central nervous system pharmacology
24. Biophysics of membranes
25. Research methods of molecular biophysical research
26. Organic chemistry

The **additional subject** of the complex exam can be chosen according to the research topic.
