professor

Action plan based on the student feedback received in the I. semester of the 2024/25 academic year

Department: Department of Preclinical Dentistry

Faculty: Faculty of Dentistry

Name of the course: General Dental Preclinical Practice/ Fogászati általános propedeutika

Reflection on the implementation of the previous period's action plan ("implementation review"):

Out of 102 students, 206 questionnaires were filled out. Based on the responses, the results were generally positive and in line with the faculty's average.

Our feedback on general comments by the students:

The majority of students were satisfied with the course.

Our feedback on specific comments on mandatory subjects:

All changes to the order of the lectures will be posted on Moodle in the upcoming years. With the help of the new dental lab, the quality of teaching in the practical part of dentistry will be improved.

Date: 24 February 2025

The action plan was compiled by:

Dr. Anna Dézsi
