

REQUIREMENTS

Semmelweis University, Faculty of General Medicine – single, long-cycle medical training programme

Name of the host institution (and any contributing institutions):

Name of the subject:

in English: Psychiatry

in German: Psychiatrie

Credit value: 6

Semester: II.

(as defined in the curriculum)

Total number of classes per week:	40 hours	lectures: 0	practical lessons: 6 weeks	seminars:0
-----------------------------------	----------	-------------	----------------------------	------------

Type of subject: compulsory optional elective

(PLEASE UNDERLINE AS APPLICABLE)

Academic year: 2022/2023

Language of instruction, for optional or elective subjects: English

Course code: AOKANG661_SA

(In the case of a new subject, this cell is filled in by the Dean's Office, following approval)

Course coordinator: Dr. Réthelyi János M.D., Ph.D.

Place of work, phone number: Department of Psychiatry and Psychotherapy, 1083 Budapest, Balassa u. 6., Tel/Fax: 061 210 0336

Position: head of the department, professor

Date and number of habilitation: 24/06/2015; 05/2015.

Objectives of the course and its place in the medical curriculum:

Aim of the subject and its place in the curriculum:

The sixth-year course of Psychiatry aims to implement the previously learned theoretical and practical knowledge into clinical work.

Elective practice option within Psychiatry

It is possible to extend the 3 week-long mandatory rotation with this six-week-long elective course to help students further deepen their practical knowledge. Furthermore, aspiring residency trainees in psychiatry may also take the six-week-long elective course to express their intention of specialization. During this elective course student may also study the prerequisites of the practical board exam in Psychiatry. (Course completion requires students to write and defend a psychiatric case report during the elective practice period on a patient of your choice. It is expected to prepare a Power Point presentation of the case report.

Place of instruction (address of lecture hall or seminar room etc.):

The course takes place at the in-patient wards of the Department (Psychotherapy ward, Crisis and addiction treatment ward, Organic psychiatric disorder treatment and rehabilitation ward,

are mandatory. Students are required to actively participate at one of the afternoon duties during the three-week-long mandatory rotation and two evening duties during the six-week-long elective course. During their duty day students are at work at the Outpatient unit (Ambulancia) between 1 pm-4 pm and join the night duty team until 9 pm. After 9 pm, students may opt in for the rest of the night duty if they want to. During the elective course, students will also be introduced to the foundation of the out-patient psychiatric care and the management of the most common psychiatric conditions that occur in other medical fields (eg. psychiatric emergencies). The topics of psychiatry required for this course are identical to the topics for the final exam published online at the Department's homepage.

Detailed objectives of the course

Psychiatric examination:

- Recording general history of the patient
- Recording biography
- Recording social history
- Recording family history
- Reporting family members
- Examination of consciousness
- Examination of perception
- Examination of orientation
- Assessing intellectual functions
- Assessing memory functions

- Differential diagnosis according to the DSM-5
- Identification of psychiatric conditions requiring psychiatric hospitalization.

Clinical knowledge psychiatry:

- Emergency psychiatry: definition, conditions requiring emergency psychiatric care.
- Patients with psychomotor retardation or aggressive/agitated behavior: possible causes and the principles of examination.
- Suicidal behavior: Manifestation, prevalence in general population and in patients with mental disorders. Protective and risk factors and prevention of suicide.
- Nonsuicidal self-harm: Manifestation, etiology, examination and distinction from suicidal attempt.
- Delirium: definition, symptoms and etiology.
- Dementias: classification, symptoms, principles of examination. MMS
- Definition of mental retardation and oligophreny. Assessment of intelligence (IQ).

<p>B2 Akut Pszichiátriai Osztály: Hear of the ward: Dr. Eszter Komoróczy Dr. Luca Egervári, Dr. Levente Hermán, Dr. Réka Ildikó Zsigmond</p> <p>Szent Rókus Klinikai Tömb Pszichiátriai Osztály: Hear of the ward: Dr. György Szekeres Dr. Andrea Sárosi, Dr. György Freschl, Dr. Brigitta Blanz, Dr. Katalin Bodnár, Dr. Irén Csala, Dr. Krisztina Seregi, Dr. Anna Báthory, Dr. Attila Zsolt Simor</p>
<p>Related subjects due to interdisciplinary fields (both compulsory and elective) and potential overlaps between subjects:</p>
<p>Attendance requirements; conditions under which students can make up for absences and the method of absence justification: A minimum attendance of 80% is required for course completion. Students may make up for absences by taking extra duties suggested by their tutor, eg. night duty, admission of patients, etc. Absences owed to sickness must be confirmed with valid medical certificate.</p>
<p>Form of assessment in the study period: (including the number, topics and scheduling of oral and written tests, their share in the overall evaluation, make-up tests and improvement tests) Student's knowledge will be evaluated during tutoring according to the topics published online on the Department's homepage.</p>
<p>Number and type of assignments for individual work and the deadline for submission:</p>
<p>Requirements to obtain the teacher's signature: Participation in the practice. Patient presentation of a selected patient.</p>
<p>Type of assessment (<i>comprehensive examination, end-term examination, term-grade, term-grade on a three-grade rating scale, no examination</i>): Term-grade</p>
<p>Examination requirements: (<i>list of examination topics, subject areas of tests / examinations, lists of mandatory parameters, figures, concepts and calculations, practical skills</i>) Powerpoint report on a selected patient. We check whether the student is able to independently examine a patient and write a psychiatric report based on this.</p>
<p>Method and type of grading: (<i>Share of theoretical and practical examinations in the overall evaluation. Inclusion of the results of the end-of-term assessment. Possibilities of and conditions for offered grades.</i>)</p>
<p>List of course books, textbooks, study aids and literature facilitating the acquisition of knowledge to complete the course and included in the assessment, precisely indicating which requirement each item is related to (e.g., topic by topic) as well as a list of important technical and other applicable study aids: Kaplan & Sadock's Synopsis of Psychiatry: Behavioral Sciences/Clinical Psychiatry. 11th edition. Eds: B J Sadock, V. A. Sadock, P. Ruiz. Wolters Kluwer, 2014.</p>
<p>Signature of habilitated instructor (course coordinator) announcing the course:</p>
<p>Signature of the director of the host institution:</p>
<p>Date of submission: 02. 08. 2023.</p>

Handwritten signature in blue ink, appearing to be 'DBB'.
