Criteria taken into account for the selection of practice sites abroad and for the acceptance of practice periods at the Faculty of Medicine:

1. In the countries of the European Union (plus Switzerland and Norway) only a practice period spent in state-accredited university clinics and their teaching hospitals will be accepted and recognized. The legal background and basis for this is the mutual recognition of degrees from the accredited institutions.

2. The places of practice accredited by the Hungarian Accreditation Committee as Accredited Teaching Hospitals in the Hungarian general medical education for the listed units are:

   - Tsukuba University Hospital (Tsukuba, Japan)
     - internal medicine, surgery
   - Ibaraki Prefectural Hospital and Cancer Center (Ibaraki, Japan)
     - internal medicine, surgery, obstetrics-gynecology part 2 weeks
   - Hillel-Yaffe Medical Center (Hadera, Israel)
     - internal medicine, surgery, neurology, psychiatry, obstetrics-gynecology, pediatrics
   - Carmel Medical Center (Haifa, Israel)
     - internal medicine, surgery, neurology, psychiatry, obstetrics-gynecology, pediatrics
   - Presbyterian Medical Center (Jeonju, Korea)
     - internal medicine, surgery, neurology, psychiatry, obstetrics-gynecology, pediatrics

Conditions for practice periods in the EU and USA

a) The hospital has to be a teaching hospital accredited by an EU/USA medical university, or be involved in the training of medical students from an EU-accredited university.

b) The education at the EU/USA practice site as described above has to be in accordance with the list of competencies adopted by the Hungarian Accreditation Committee for the clinical practice year of the medical student.

c) The practice site abroad has to evaluate the student’s performance, and the head of the relevant department has to certify with their signature the completion of the tasks detailed in the competencies list.
