for Dental Students

2023

Date of final exam: **19 June 2023, 9 am**

Exam venue: Semmelweis University

The nationally standardised written final examination will be held digitally via the Final Exam Committee for the Medicine, Dentistry and Pharmacy (OZBV). Registration on the website is required! The written test questions are based on the integrated dental knowledge – acquired during the undergraduate dental training – which is renewed starting from this year. Each question has one single correct answer. Examinees trained in the three different languages complete the same set of questions in their respective language.

Exam preparation

Test questions and answers are provided on the www.zarovizsga.hu website in order to help the examinees' preparation. The final exam will be comprised of similar or the same questions.

Students can take mock exams as well. There are three types of mock exams:

- short exam based on 3 chapters of the student's choice. Number of questions: 50. Duration: 45 minutes.
- long exam based on 3 chapters of the student's choice. Number of questions: 180. Duration: 180 minutes.
- mock exam based on all final exam topics. Number of questions: 180. Duration: 180 minutes.

The final exam

Duration of the exam: **180 minutes 9.00 am – 12.00 am**

The digital interface allows forward and backward scrolling throughout the test taking. Any answer can be changed during the exam. The number of answered questions is displayed on the screen, and skipped questions are signalled with a warning.

Examinees may enter the exam room by presenting a valid photo ID and signing the attendance sheet. The exam supervisors and the Dean's Office staff will provide the necessary information to the examinees prior to the test taking.

During the written final examination, the head supervisor keeps a written record.

No electronic devices (mobile phones, laptops, etc.) as well as handwritten or printed materials (notes, textbooks) are allowed in the exam room. By signing the attendance sheet, the examinee declares having none of the above on their person.

The exam room seating arrangement is determined by the supervisors. During the examination, no more than one student is allowed to leave the room at any given time with the permission of the head supervisor. The time of departure and return will be indicated in the final exam's written record.

Examinees using any prohibited means during the written final exam – including any electronic or smart device – will be disqualified effective immediately and without warning. Disqualification results in a failed exam. The fact of disqualification must be indicated in the written record. Furthermore, disqualification will entail further disciplinary action.

Leaving the examination room is only allowed with legitimate reason with the permission of the head supervisor. At any given time, only one examinee is excused from the room. The time of the departure and return will be indicated on the student's exam paper along with the head supervisor's signature.
