education and research department has certified the completion of the assignment (certificate of completion). This is done by the Centre for International Studies. The amount of the Demonstrator Scholarship will be determined according to the provision of the Dean's Circular letter 55867-2/AOATO/2020.

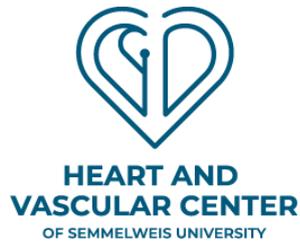

Application is open until the **end of the exam period** of Academic Year 2024/2025. II. Semester (7/7/2023.) by downloading the application form from the department's website (<https://semmelweis.hu/mutettan/en/education/demonstrator-scholarship/>). Please send the filled and signed application forms to the kksmtnet@semmelweis.hu. The submitted applications will be forwarded to the Faculty's Dean's Office. **Applications submitted after the deadline or in an incorrect form and manner will not be accepted!**

We encourage students studying in English language to submit their application **using the English application form**. Applications submitted after the deadline or in an incorrect form and manner will not be accepted!

The head of the Faculty with the involvement of the Student's Union, decides on the evaluation of the received applications no later than the beginning of the autumn semester, which simultaneously notifies the students and informs the relevant educational and research organizational units.

Following the decision of the Dean, the responsible for TAs of the department will contact the students for further consultation.

Unfortunately we cannot accept applications after the deadline mentioned above.
