

Important Information on Discounted Student Passes (Academic Year 2026/2027)

Starting from the 2026/2027 academic year, discounted National Passes, County Passes, and Student Budapest Passes must display, instead of the education identification number, either:

- your student ID card number; or
- the number of a valid personal identification document (ID card, passport, or driver's licence).

Students who have not yet received their student ID card and only possess a temporary student certificate must provide the number of a personal identification document when purchasing their pass.

When travelling with a discounted pass, students must be able to present:

- their discounted pass;
- a valid student ID card or temporary student certificate; and
- a personal identification document if requested by an inspector.

A grace period will remain in effect **until 31 August 2026**. During this period, passengers whose eligibility for the student discount can be clearly verified will not be charged a penalty fare. Instead, transport service providers will simply inform them about the new requirements.

Please check before travelling that the correct identification number is displayed on your pass!
