

ÁOK KURRIKULUM 2025/26 - ANGOL NYELVŰ KÉPZÉS

SEMMEWEIS UNIVERSITY FACULTY OF MEDICINE

English Language Program

STUDY PROGRAM

Courses Taught in the 2025/2026 Academic Year

Compulsory subjects of the curriculum recommended from the 2025/2026 academic year,  
based on the curriculum amended by Senate Decision No. 59/2024 (V.30.) of Semmelweis University

When enrolling for the courses - in order to complete the 360 credits required for the degree - in addition to the obligatory subjects it is recommended to take the obligatory elective and the optional subjects in a proportional manner over the 12 semesters, to ensure that the acquisition of 30 (± 3) credits per semester is achieved.

Based on the decision No. 79/2020 (V.28.) of the Senate, the curriculum of medical training is amended with the following requirement related to the 'principles of professional ethics':

The oath of students enrolling in the first year of the Faculty of General Medicine:

„I,....., student of Semmelweis University promise under oath that I will respect the Hungarian laws and the Fundamental Law of Hungary. I promise solemnly that I will respect the professors and teachers of the University, and that my conduct will be in keeping with the honor of my profession. I will keep the secrets of the patients that I learn about in the course of my studies. I will pursue my studies with full sense of responsibility to prepare myself to the best of my abilities for all my duties and obligations in my profession so as to be able to serve with my knowledge the progress of mankind.

Based on the decision No. 47/2022 (VI.23.) of the Senate, the curriculum of medical training is amended with the criterion requirement of completing the obligatory non-credit subject *Semmelweis Symposium* .  
From the year 2028 on, the completion of this subject will be a precondition for the issuance of the pre-degree certificate.

Module	Compulsory /Elective Course	Year	Semester	Neptun-code	Course Name	Lecture (h/week)	Practice (h/week)	Seminars (h/week)	Credits	Prerequisite 1	Prerequisite 2	Prerequisite 3	Examination	Notes

<p style="text-align: center;"><i>Based on the decision No. 79/2020 (V.28.) of the Senate, the curriculum of medical training is amended with the following requirement related to the 'Principles of professional ethics' taking into account the modifications requested by the Rector:</i></p> <p style="text-align: center;"><b>The oath of students graduating from the Faculty of General Medicine:</b></p> <p>I, ..... swear that I will devote myself to the medical profession at all times. I will use the knowledge acquired in the field of medicine to prevent and cure diseases, and to benefit the physical and mental well-being of my patients. I will not betray the confidence of those who turn to me, nor will I take advantage of their defenselessness, nor will I disclose their secrets. I will treat every person with equal care and attention. I will maintain the high quality of my knowledge and skills by continuous education, but will also acknowledge the limits of my knowledge and abilities. I will submit myself to the ethical requirements of my medical practice. I will strive to enhance the reputation of the medical profession and of Semmelweis University. So help me God!</p>
<p>* Simultaneous enrolment is also possible.</p>
<p><b>** Clinical work:</b> clinical (patient care) credit.</p> <p>1 credit per semester can be earned by performing productive clinical work for averaging at least 24 hours per month.</p> <p>2 credit per semester can be earned by performing productive clinical work for averaging at least 48 hours per month.</p> <p>3 credit per semester can be earned by performing productive clinical work for averaging at least 72 hours per month.</p> <p>Certification and evaluation can be obtained from the director of the respective clinic/hospital. The credit can be awarded if the director provides a list of the skill(s) acquired.</p>
<p><b>*** TDK work</b> (1 credit): 1 credit for documented and evaluated TDK work (research activity as a registered member of the Students' Scientific Association) that demonstrates genuine effort and is systematic but not outstandingly successful. The 1 credit is awarded to the student if the head of the affected department, based on the opinion of the supervisor, confirms the systematic research activity at the end of the semester.</p> <p>In addition to the 1 credit, additional credits can be earned as follows:</p> <p>TDK Conference III. (2 credits): the course recognizes the work of a student who is a presenter at a TDK Conference or submits a paper for the Rector's Award.</p> <p>TDK Conference I-II. (3 credits): recognition of the work of a student who comes first, second or third in the TDK Conference, or participates in the National TDK Conference, or is awarded first, second or third prize or commendation in the Rector's Award competition.</p> <p>National TDK Conference and Publication (4 credits): the course recognizes the work of a student awarded a place at the National TDK Conference, or a student who publishes an article as a first author in a professional journal with an international impact factor.</p>
<p><b>**** Demonstrator work:</b></p> <p>Demonstrators will receive the following credit points to be included in their training</p> <p>a) 2 credit points if they perform demonstrator activities continuously for 2 semesters,</p> <p>b) 1 credit point if they perform demonstrator activities continuously for at least 1 semester.</p>
