<i>Consultant</i>	<i>Thesis Topics</i>
Dr. Bánky Balázs - Dr. Bencze Viktória	Which factors influence patient preferences in low rectal cancer requiring stoma formation?
Dr. Bánky Balázs - Dr. Fülöp András - Dr. Lakatos Lóránd	The role of body composition and nutritional status in short- and long-term outcome of colorectal cancer surgery.
Dr. Bánky Balázs - Dr. Lakatos Lóránd	Long-term results of transanal minimally invasive surgery (TAMIS) in early malignant tumors of the rectum
Dr. Bánky Balázs - Dr. Lakatos Lóránd	Effects of learning curve in transanal total mesorectal excision (TaTME)
Dr. Bánky Balázs - Dr. Lakatos Lóránd	How radicality of surgical and pathological lymph node dissection influence outcome of colorectal cancer?
Dr. Cseppekál Orsolya	Kidney transplant rejection - new diagnostics and therapeutic approaches
Dr. Cseppekál Orsolya	Hypertension after kidney transplantation
Dr. Cseppekál Orsolya	Haemolytic uraemic syndrome and kidney transplantation
Dr. Darvas Katalin - Dr. Horváth Alexandra - Dr. Ózse Márta	Anesthesiological risk and surgical anesthesia at elderly patients
Dr. Darvas Katalin - Dr. Ózse Márta	Perioperative care and general anesthesia of endocrine surgical patients
Dr. Fülöp András	The effect of prehabilitation in the surgery of gastrointestinal cancer
Dr. Hagymási Krisztina	Chronic hepatitis B (Treatment)
Dr. Hagymási Krisztina	Chronic hepatitis C (Treatment)
Dr. Hagymási Krisztina	Non-alcoholic fatty liver disease (In General, Treatment)

Dr. Hagymási Krisztina	Hepatocellular carcinoma (In General, Pathogenesis, Treatment)
Dr. Hahn Oszkár	Surgery of primary liver tumors
Dr. Hahn Oszkár	Portal occlusion techniques in liver surgery
Dr. Harsányi László	Ethical aspects and dilemmas of surgical innovations
Dr. Harsányi László	Pancretic neoplasms in childhood
Dr. Hritz István	Minimally invasive treatment of benign biliary strictures
Dr. Hritz István	Treatment of acute necrotizing pancreatitis
Dr. Hritz István	Diagnostics and therapy of acute non-variceal upper gastrointestinal bleeding
Dr. Hritz István	Management of acute variceal bleeding
Dr. Huszty Gergely	Special aspects of surgery in gastroentero-pancreatic neuroendocrine tumors
Dr. Huszty Gergely	Surgery of adrenocortical cancer - where are the limits today
Dr. Huszty Gergely	CRS + HIPEC - indications and results
Dr. Huszty Gergely	Special surgical aspects of patients with MEN syndromes
Dr. Huszty Gergely	Pancreatic transplantation - how donor organ quality affects results
Dr. Kokas Péter	Surgical aspects of the Upper GI tract bleeding
Dr. Miheller Pál	Role of microbiom in pathogenesis of inflammatory bowel diseases

Dr. Miheller Pál	Multidisciplinary approach of
Dr. Szabó Marcell	Cardiovascular complications after major non-cardiac surgery
Dr. Szabó Marcell	Surgical risk assessment after Covid19 infections
Dr. Szabó Marcell	Regional anaesthesia for decreasing postoperative complications
Dr. Szabó Marcell - Dr Varga Balázs	Ultrasound in monitoring postoperative pulmonary and cardiovascular status
Dr. Székely Hajnal	Eosinophil esophagitis
Dr. Székely Hajnal	Video capsule endoscopy of the small bowels
Dr. Székely Hajnal	Barret's oesophagus
Dr. Székely Hajnal	Microscopic colitis
Dr. Szijártó Attila	New concept of the management of the liver tumor
Dr. Szijártó Attila	Surgery on the bile duct
Dr. Szijártó Attila	Triggered liver regeneration - experimental and clinical applications
Dr. Szücs Ákos	Pancreatic cystic neoplasms
Dr. Szücs Ákos - Dr. Benke Márton	Biomarkers in pancreatic neoplasms
Dr. Szücs Ákos - Dr. Fekete Krisztina	Pancreatic neuroendocrine tumours
Dr. Szücs Ákos - Dr. Kokas Bálint	Percutaneous transhepatic treatment of obstructive jaundice

Dr. Szücs Ákos - Dr. Marjai Tamás	Preoperative biliary drainage in malignant biliary obstruction
Dr. Vass Tamás	Collateral damage of COVID-19 pandemic on surgical health care
Dr. Vass Tamás - Dr. Bán Kinga	Surgery of the upper GI tract
Dr. Vass Tamás - Dr. Bennemann Stephan	Physical and mental strain of surgeon during surgery
Dr. Vass Tamás - Dr. Papp Veronika	Interdisciplinary treatment of upper GI stenosis
Dr. Wagner László	Posttransplant Diabetes Mellitus
Dr. Wagner László	Long-term risk of live kidney donation
Dr. Wagner László	Tertiary hyperparathyroidism after kidney transplantation
Dr. Weltner János	Quality indicators in surgery
Dr. Weltner János	Oncological aspects of coloproctological surgery
Dr. Weltner János	Time factors of emergency surgery
Dr. Weltner János	Multivariate analysis of surgical risk
Dr. Weltner János	Cost elements in the reimbursement of surgery
Dr. Kóbori László	Indication and limits of liver transplantation in case of hepatocellular carcinoma
Dr. Kóbori László	Development of treatment options of malignant liver tumours
Dr. Kóbori László	Monitoring the effect of the immunosuppressive drugs on CYP Enzymes in liver transplanted patients

Dr.Kóbori László	Most common indications of liver transplantation in children
Dr.Kóbori László	Indications of combined organ transplantations
Dr.Szabó József-Dr.Toronyi Éva	Technical aspects and development of abdominal organ procurement for transplantation
Dr.Toronyi Éva	Recent developments of xenotransplantation
Dr.Toronyi Éva	The role of the proliferation signal inhibitors in the treatment of kidney transplanted patients with malignant tumours
Dr.Toronyi Éva	The importance of haemostatic disorders in kidney transplanted patients
Dr.Toronyi Éva	Indication and results of multiorgan transplantations
Dr.Toronyi Éva	Complications of kidney transplantation in diabetic patients
