FIRST ANNOUNCEMENT

SEMMELWEIS SYMPOSIUM 2024

Welcome

Dear Colleagues,

We are excited to announce that the 32nd Semmelweis Symposium, the most prestigious scientific event of Semmelweis University, will be held in November 2024 in Budapest, on the topic:

Network Medicine for Future Healthcare

with the contribution of distinguished speakers from around the globe, sharing insights and research in areas encompassing network sciences, systems biology, and human dynamics.

The main partner will be Network Medicine Alliance (NMA), the organization represents 34 leading universities and research institutions worldwide, dedicated to improving global health and advancing the field of Network Medicine.

Join us on this exciting journey where innovation and science converge to shape the future and be part of the latest and most outstanding research results, breakthroughs, and presentations.

We are looking forward to welcoming you and have an excellent time together in Budapest!
