## The goals and place of the course in regards to the education of dental students:
The aim of the course is to provide all the necessary skills and knowledge for future dentists, that enables them to perform basic oral surgical procedures under supervisory control.

## Location of the course (address of lecture hall, seminar room etc.):
Department of Oro-Maxillofacial Surgery and Stomatology, Budapest, 1085 Mária utca 52. lecture hall, seminar rooms No. I., II., Ambulance

## Competences necessary to be completed for the course:
Skill-level diagnosis and differential diagnosis of oral surgical diseases occuring during dental practice. Theoretical knowledge of therapeutic options and independent solution of simpler cases.

## Pre-study requirements and prerequisites of course registration and completion:
Implantology I., Periodontology II., Oral and maxillofacial Surgery III.

In case of a multi-semester subject, the standpoint of the educational-research unit on the concurrent subject registration and on the requirements of permission thereof: It is not possible.

## Number of students required for the course (min., max.):
The number of students on each course will be determined according to the expected number of students, taking our educational capacity into consideration. Each course will held as declared in the rules of small-group education.

## Method of course registration:
via the Neptun system

## Detailed course/lecture description³: (to facilitate credit recognition in other institutions)

### Lectures:
1. The evolution of modern oral surgery in Hungary
2. Current issues of anticoagulation
3. Precaancerous lesions and conditions in the max.facial region. Screening and its importance.
4. Benign tumors in the head and neck region.
5. Malignant tumors in the head and neck region I. (Diagnosis, pathology)
6. Malignant tumors in the head and neck region II. (complex treatment, surgical procedure)
7. Reconstructive surgery in the maxillofacial region.
8. Written midterm
9. The modern diagnosis and therapy of maxillofacial traumatology
10. Biological principles of bone healing and regeneration.
11. Decision making in conservative and surgical orthognathia.
12. The role of autologous blood products in regenerative surgery.

**Practice:**

**A. Outpatient treatments:**

**B. Inpatient class practice:**
1 week practice at in-patient ward. Getting insight in to the work of the Maxillofacial department. Surgical assistance in head and neck surgeries.

**Lecturers and practice teachers:**

**Dentoalveolar surgery:**

**Specialists**
- Dr. Amir Hossein Ashourioun
- Dr. Janka Bécser
- Dr. Kinga Bérczy
- Dr. Norbert Cziriák
- Dr. Katalin Csurgay
- Dr. Attila Iványi
- Dr. Árpád Joób Fancsaly
- Dr. István Kaposvári
- Dr. Dorottya Kiss
- Dr. György Komlós
- Dr. Szilvia Koncz
- Dr. Ferenc Koppány
- Dr. Noémi Kovács
- Dr. Kinga Renáta Körmöczi
- Dr. Rita Margita Marton
- Dr. György Szmirnov
- Dr. Ilona Szmirnova
- Dr. Attila Szűcs

**Residents:**

- Dr. Márton Ács
- Dr. Adrienn Beszedics
- Dr. Zita Biczó
- Dr. Roland Decker
- Dr. Eszter Hardi
- Dr. Huba Donát Juhász
- Dr. Gábor Kammerhofer
- Dr. Nóra Magyar
- Dr. Béla Régeni
- Dr. Huy Viet

**Maxillofacial surgery:**

**Specialists in maxillofacial surgery:**
- Dr. Péter Barabás
- Dr. Sándor Bogdán
- Dr. Gergely Soma Csókay
- Dr. Tamás Huszár
- Dr. Péter Lillik
- Dr. Zsolt Németh
- Dr. Zsófia Somogyi
- Dr. Szófia Katalin Szentpéteri
- Dr. György Szabó
- Dr. Mihály Tamás Vaszilkó
- Dr. Tamás Würsching

**Residents:**

- Dr. Lőrinc Zatik
- Dr. Ákos Dora
- Dr. Anita Győrffí

**Lecturers from other institutions of Semmelweis University:**
- Dr. Tamás Vízkelety

Courses *(obligatory and optional)* which partially or entirely overlap the topics of the below listed courses:
Macroscopic anatomy, Periodontology, Oral Implantology

**Recommended literature:**

- Howe: The Extraction of Teeth, Wright 1990
- Peterson: Contemporary Oral and Maxillofacial Surgery, Mosbí, 2003

---

**No 1. appendix to Requirements in Oral and Maxillofacial Surgery IV. 2023/2024/I. semester**

- a. You may check the topics of the practices on separate sheet of paper.
- b. Attendance of the practices is obligatory and will be regularly checked. Attendance of the lectures is not mandatory and will be randomly checked but the absences does not affect the final grade of the semester.
- c. Absences from the practical courses attested with sick note still counts as an absence, but in this case the missed class can be made up with other groups.
- d. The lecture material will be available on the Moodle platform. The study materials, videos and audio files are owned by the Department of Oro - Maxillofacial Surgery and Stomatology. Sharing and any further utilisation is not allowed. For violation of the data management regulations the students are legally and ethically liable.
- e. Practices:
  - I. Regular weekly practice (2 hours/week) at the outpatient department.
  - II. One week practice at the inpatient ward: see on separate sheet.
- f. Throughout the semester the acquired material of the lectures and practices will be regularly tested either orally or in a written form. The time of the midterms will be assigned by the practice leaders.
g. A written midterm test will be held on week 8 (24.10.2023, supervisor Dr. Bérczy) at the venue and time of the lecture (material of the 5th, 6th, 7th, 8th and 9th semester). A pass in this midterm is the condition for acceptance of the term.

h. Absences from midterms are only accepted in case of presenting a valid certificate. In case of uncertified absences the mark of that midterm would be considered as „failed”. In case of failed midterm there are two possibilities to retake it. Passing all the midterms is the condition of releasing a student to the exam.

i. The signature at the end of the term may be denied if a student

- misses more than 3 practices
- shows ignorance of the material presented at the lectures and the practices - this is evaluated by the practice leader (specialist of dento-alveolar surgery)
- the average of the midterm's grades is below 2 (pass)

The student will be notified about the negation of the signature no later than week 13.

j. There is no exam at the end of the first term of the fifth year. The practical marks will be based on the attendance, diligence and the results of the midterms. The final mark will be announced during week 13. According to the decision of the practice leader, improving the final mark during the last week of the semester may be possible. Changes to the practical mark cannot be made after the end of the semester.

k. Usage of cell phones during the time of the practices is prohibited. If the student uses a mobile phone despite the warning of the practice leader, they cannot continue the given practice and have to leave the practice hall immediately. This dismissal is equal with an absence which takes into account of the permitted (maximum 3) absences in a semester. For taking notes during the time of the practices students can use: tablets, notebooks, small laptops.

l. It is not allowed to take photos and audio recording during lectures and practices.

Signature of course lecturer:

Signature of head of department:

Date of submission:

Opinion of OKB:

Notes from the Dean’s Office:

Signature of Dean:

---

1 Filled out by the Dean’s Office following approval
2 Detailed and numbered for each week of theoretical and practical lessons one by one, indicating the names of lecturers and instructors
3 Eg. field practice, medical chart analysis, survey conducting, etc.
Eg. homework, report, midterm exam etc. Topics, dates, method of retake and replacement.

Method of inclusion of theoretical and practical exams. Method of inclusion of midterm assessments.
