

Action plan based on the student feedback received in the 1st semester of the 2023/2024 academic year

Department: Oro-Maxillofacial Surgery and Stomatology Faculty: Faculty of Dentistry

Course: Oral Surgery II (FOKOSZB353_2A)

Implementation goals

- 1., revision of lecture materials regarding grammar and quality issues
- 2., acquisition of practice materials

1., Our feedback on general comments by the students

Evaluation of the subject based on 48 submitted student questionnaires:

KÉRDÉS		KARI ÁTLAG	ÁTLAG
K01	Milyen mértékben keltette fel az intézet oktatómunkája érdeklődését a tantárgy iránt?	4.37	4.67
K02	Milyen mértékben volt szervezett a tantárgy oktatása?	4.36	4.50
K03	Milyen arányban vett részt az intézet/tantárgy előadásain?	4.36	4.57
K04	Mennyire voltak az előadások didaktikusak, logikusak?	4.31	4.45
K05	Mennyiben járultak hozzá az előadások a tananyag elsajátításához?	4.34	4.51
K06	Mennyire voltak a gyakorlatok szervezettek, jól felépítettek?	4.39	4.44
K07	Mennyiben járult hozzá a gyakorlat a tananyag sikeres elsajátításához?	4.38	4.38
K08	Milyen mértékben járult hozzá a hivatalos tankönyv/jegyzet a tananyag elsajátításához?	4.34	4.39
K09	Milyen mértékben járultak hozzá az intézet által kidolgozott WEB segédanyagok a tananyag elsajátításához?	4.34	4.50
K10	Milyen mértékben tartott az intézet oktatási fegyelmet? (előadások, gyakorlatok pontos kezdése, megjelenés, oktatási idő pontos betartása stb.)	4.45	4.60
K11	Milyen mértékben határozta meg az intézet a tantárgy vizsgakövetelményeit? Mindent összevetve a tantárgy oktatását milyennek minősíti?	4.38	4.52
K12	Milyen mértékben segítette a tantárgy elsajátítását az intézet oktatógárdája?	4.40	4.60
K13	Mindent összevetve a tantárgy oktatását milyennek minősíti?	4.37	4.54

Students said: *"good lectures, but far superior practicals. thank you - great example of how the subject should be taught"*

"if its possible can elongate the duration of lecture or make it twice a week.it will be more helpful"

Our response: Thank you very much for your feedback!

Students said: *"sometimes, they just can't finish the lecture within the scheduled time..."*

"Generally lectures were really good content-wise. The use of English medical terminology was disappointing at times, "removement", "week" (weak), "reparation" and made the good content hard to decipher. Is there any chance the material could be vet before presenting it?"

"The midterm questions were difficult to understand, and many of knowledge hadn't been discussed at all during the lecture."

Our response: We are going to address the quality and timing issues to the lecturers. We think that our lectures do cover the knowledge and requirements to complete the semester. Practice related topics are further discussed during group sessions.

2., Our feedback on specific comments on mandatory subjects

Evaluation based on 121 submitted student questionnaires:

KÉRDÉS		KARI ÁTLAG	ÁTLAG
K01	Mennyire volt az oktató magyarázata logikus, jól érthető?	4.55	4.66
K02	Mennyire volt az oktató problémafelvető, gondolkodtató?	4.52	4.66
K03	Mennyire volt a foglalkozás gyakorlatorientált, interaktív?	4.53	4.64
K04	Mennyire voltak a gyakorlatok szervezettek, jól felépítettek?	4.53	4.67
K05	Mennyire volt a gyakorlatvezető segítőkész?	4.54	4.66
K06	Mennyire sikerült a gyakorlaton elsajátítani az adott témát?	4.51	4.68
K07	Mennyire van összhangban a gyakorlaton végzett tevékenység az előadáson megszerzett tudásanyaggal?	4.53	4.62
K08	Értékeli saját aktivitását a gyakorlaton	4.55	4.78
K09	Mennyire érezte hasznosnak az eltöltött időt?	4.52	4.59
K10	Összességében hogyan értékeli a gyakorlatvezető tevékenységét?	4.54	4.69

Students said: *"(Dr. Körmöczi Kinga Renáta): So nice and patient and very good teacher"*

"(Dr. Körmöczi Kinga Renáta): thank you"

"(Dr. Biczó Zita): Please talk a little louder but very nice and patient!"

"(Dr. Biczó Zita): thank you"

"(Dr. Biczó Zita): I have had the chance to do three of my extractions with her, two this semester and one last semester. Her advices during the extractions calmed me and reduced my stressed, made me better gradually. Very enjoyed being her student. Hope to have her again!"

"(Kammerhofer Gábor): Very good teacher and very nice and patient to students. I can learn useful practical knowledge from him."

"(Dr. Kammerhofer Gábor): great teacher, nice explanations, very calm and helpful"

"(Dr. Kammerhofer Gábor): Always very calm and patient, allowed us to practice our practical skills."

"(Régeni Béla Márton): Régeni Béla Márton was very patient and helpful during the extractions. Also explained the practice pdf's very well."

"(Régeni Béla Márton): So patient teacher and so helpful thank you"

"(Régeni Béla Márton): Tried to involve us in the practice and explain."

"(Dr. Komlós György): fabulous teaching, both practical and theoretical aspects; thank you very much! what a difference it makes to have a competent teacher like that"

"(Dr. Komlós György): Best instructor in the department"

"(Dr. Komlós György): he is very strict which made me learn a lot in the practice and his explanations were great"

"(Dr. Ács Márton Nándor): very well explained material, good practical approach"

"(Dr. Ács Márton Nándor): Very helpful and patient."

"(Dr. Iványi Attila): Dr. Ivany is a very skillful surgeon with a gifted ability to transfer his knowledge and experience to his students. Dr. Zita and Dr. Adrienn have been very helpful and nice to us"

"(Dr. Koncz Szilvia Zsuzsanna): Always tried to explain everything accurately and patiently."

Our response: Thank you very much for your positive feedbacks!

Students said: "(X.Y.): Be nicer and less rude to students, especially all the girls please"

"(X.Y.) Sometimes this teacher made it very obvious she didn't want to be there, so asking her questions felt like a burden to her. This is very demotivating. "

"(X.Y.) always got mad without a reason. Sometimes he was patient to students and sometimes he became crazy at unnecessary things. He was too strange as a person and made the study experience very bad during the semester!!!

Our response: We contacted the teachers regarding students feedback.

Students said: "(Dr. Iványi Attila): Dr. Ivanyi is indeed a great teacher. The only issue is the time spent and structure of such practices which had no benefits at all when it was only few students who had the chance to extract on the specific day; while others had to stay and do absolutely nothing, complete waste of time and had to wait until they were allowed to leave. It is truly an ignorant schedule. I wish there were at least opportunities to practice useful hand skills such as suturing but even for that there was ONLY ONE KIT for 15 students; absolute joke for 12000 USD tuition fee per semester. Please at least provide the tools for every student to have at least one opportunity to practice suturing and flap preparation on artificial tools; It is a shame for such a highly academic environment."

"The Practices were a waste of time. Each student could do an extraction twice in the whole semester and we spent the remaining of our time just sitting around and doing absolutely nothing. I think that student's time could be better spent doing something else and this is unacceptable!"

Our response: Oral surgery requires constant supervision, therefore treatment schedule is limited. The aim of the curriculum is to introduce students to basic tooth removal. We will consult within our institute to acquire further equipment in order to improve practice experience.

Budapest, 19th March, 2024
