SEMMELWEIS EGYETEM

Department of Languages for Specific Purposes

Dr. Katalin Fogarasi

director

## Planned measures based on student feedback on the spring semester of the 2020/2021 academic year – Faculty of Pharmaceutical Sciences

**SE unit: Department of Languages for Specific purposes**

**Our feedback on general student opinions:**

The student feedback from the semester of 2020/2021 showed that, they are very satisfied with the language teaching methods at the Institute. The professional training of our instructors and their ability to adapt to the needs of students were emphasized again. Positive feedback was also received on the themes and structure of the lessons.

Although the situation improved compared to the fall semester, it remained a concern that not all colleagues had unlimited Zoom access. We have received a promise from the Center for Educational Development, Methodology and Organization to solve this problem.

**Planned Measures:**

Based on students' feedback we are ready to continue the process of standardizing our core teaching material and further enhance our teaching methods of our courses.

**Our feedback on individual opinions on mandatory subjects:**

**Pharmaceutical Hungarian Language:**

*„Thanks to ..., her teaching makes the learning process very effective and interesting”*

*„Hungarian is quite a difficult language but the teaching staff make it a piece of cake. Thanks to them.”*

*“Clear examination rules and curriculum/topics for the semester.”*

*“She is an incredible teacher who is encouraging and kind. Out of all of my subjects taken at this university I have flourished under her tutelage and really grown to enjoy learning the Hungarian Language”*

Students' motivation keeps us motivated.
