

WOULD YOU LIKE TO STUDY LANGUAGES FOR MEDICAL PURPOSES?

DO YOU NEED ELECTIVE CREDITS?

The Department of Languages for Specific Purposes is launching the following

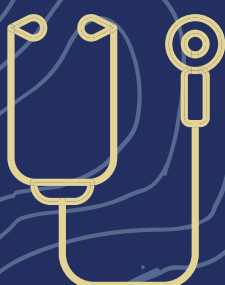

LANGUAGE COURSES IN THE 2022/23/1 SEMESTER

Introduction to English/German/French/ Russian/Italian/Spanish for Medical Purposes

We offer Introduction I-II for complete beginners or those that have very little knowledge of the chosen language. At the end of the course, you will be able to e.g., ask the relevant questions to take a patient history, give information, instructions, simple descriptions of medical procedures, etc. We organize courses for non-Hungarian students, where English is the language of instruction.

English/German/French/
Russian/Italian/Spanish
for Medical Purposes I-IV.

These courses are designed for students who have an intermediate level of knowledge of the chosen language. The individual courses differ in their topics, but not in language competence, thus they can be taken in any order. We try to arrange the classes so that most students can fit them into their schedules.

Preparatory Course for the Basic Exam in English/German/French/ Russian/Italian/Spanish for Medical Purposes

This exam and the preparatory course are available for non-Hungarian students, for two credits points each. The pre-degree certificate of those passing the exam will include that in emergency situations the holder is able to take an anamnesis, do clinical handover as well as instruct and inform a patient in the chosen language, at pre-intermediate level.

What do you need to do?

1.

Check the list of available courses on our website and select the one(s) you prefer:
<https://semmelweis.hu/szaknyelv/en/french-spanish-italian-russian-courses/>

2.

Register for the chosen one(s) in Neptun in the registration period

3.

Complete the course and get elective credits
