Schedule for teaching the course
Topics of theoretical lessons (broken down by weeks): -
Topics of practical lessons (broken down by weeks):
Week 1: Introduction, university studies, subjects, specialities
Skills: asking for basic information, orientation in medical fields
Week 2: Fever, acute and infectious diseases, using antipyretic agents
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient
Week 3: Pain and its nature, painkilling Skills, interviewing the notions for differential diagnostically relevant complaints, informing the notions
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient Week 4: Headache and other neurological diseases
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient
Week 5: Cardiovascular diseases, symptoms and treatment. Pharmaceutical treatment of high blood pressure
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient
Week 6: Vascular surgery for cardiovascular diseases
Skills: preparing the patient for intervention, aftercare, giving advice on lifestyle
Week 7: Midterm test. Presentations
Week 8: Respiratory diseases, symptoms and their pharmaceutical treatment
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient
Week 9: Diseases, symptoms of the digestive system and their pharmaceutical treatment Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient
Week 10: Metabolic diseases, symptoms and treatment. Pharmaceutical treatment of diabetes
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient, dietetic advice
Week 11: Diseases, symptoms and treatment of the kidney and the urinary tract
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient
Week 12: Infectious diseases, symptoms and treatment
Skills: interviewing the patient for differential-diagnostically relevant complaints, informing the patient, consultation
Week 13: End-term test. Presentations
Week 14: Closing the term. Evaluating the term

Schedule for teaching the course
Topics of theoretical lessons (broken down by weeks): -
Topics of practical lessons (broken down by weeks):
Week 1: Introduction, university studies, subjects, specialities. Age-specific developmental stages of children
Skills: asking for basic information, orientation in medical fields
Week 2: Infancy. The mother-child relationship, baby-care
Skills: communication with parents, consultation
Week 3: Symptoms of paediatric diseases, treatment with pharmacy products
Skills: consultation about pharmacy products
Week 4: Hereditary diseases. Screenings
Skills: providing information and consultation regarding screening tests Week 5: Medical treatment of a sick child
Skills: formulating instructions regarding the use of a drug
Week 6: Infectious diseases and their prevention. Vaccination calendar. Patient education.
Skills: informing the patient, consultation
Week 7: Midterm test. The function of the female genitalia. The menstrual cycle.
Week 8: The most common diseases of the female genitals and their treatment. Screening and prevention
Skills: interviewing the patient for differential-diagnostically relevant complaints, consultation regarding screening tests
Week 9: Fertilization, artificial insemination, contraception
Skills: informing the patient, consultation
Week 10: Pregnancy and childbirth. Pharmaceutical care of pregnant women
Skills: informing the patient, consultation
Week 11: Menopause, (change of life), its most common diseases and their pharmaceutical treatment
Skills: informing the patient, consultation
Week 12: The most common diseases of the male genital tract and their medical treatment
Skills: informing the patient, consultation
Week 13: End-term test. Presentations
Week 14: Closing the term. Evaluating the term Schedule of consultations: -
Course requirements
•
Course prerequisites: -
Requirements for participation in classes, the extent of acceptable absences, method of justifying absence, possibility
to make up for absences: Attendance of lessons is obligatory. Students are allowed to have three absences per semester. In the case of more
absences, the teacher may deny giving a signature. Students who miss a class can make up for it (once a semester).
A medical certificate for long-term sickness or hospitalization is required if students are absent more than 3 times.
Assessments: Written midterm and end-of-term spoken tests (week 7 and 13)
Topics of midterms: see the topics of the course.
Students who fail the midterm test must retake it outside of the hours of the lesson
Requirements for signature:
Attendance of lessons is obligatory. Students are allowed to have 3 absences per semester. In the case of more absences, the
teacher may deny giving a signature. Students who miss a class can make up for it (once a semester). Students must pass both
tests. Active participation is required during the lessons.
The evaluation of student performance is based on the marks received for the 2 tests and active participation in classes. Tests
under 50% must be retaken. In the latter case, the result of a fail will also be calculated towards the final mark.
0-50% = 1 (fail)
51-60% = 2 (pass)
61-75% = 3 (satisfactory)
$76-89\% = 4 \pmod{100}$
90-100% = 5 (excellent)
Students individual tasks during the semester: -
Method of end-of-semester evaluation: graded
Form of end-of-semester evaluation: Midterm and end-term tests
External internships of the course: -
Printed, electronic and online notes, textbooks, guides and literature (URL address for online material) to aid the
acquisition of the curriculum: Authentic material compiled by the Department of Languages for Specific Purposes.
Textbooks per specific languages according to the list provided.
Material needed for the course: -
Course-related scientific results, research: - Course description prepared by: Borbála Nagy, Éva Katalin Varga PhD
