Teachers:

Edit Zsinka
Beáta Hampuk

Main Topics:

Body regions, body parts
Taking history
Physical examination
Diagnosis, patient information
Therapeutic groups
Emergency care, first aid
Description of laboratory and instrumental tests, interpretation of results, referral
Surgical procedures, pre-operative and post-operative patient education

Week: Topic:

- Week1. Introduction, university studies, subjects and specialities
Skills: asking for basic information, orientation in medical fields
2. Body regions, body parts and related symptoms
Skills: asking the patient about his complaints
 3. History taking, diseases and surgical interventions
Skills: history taking, documenting data
 4. Inherited diseases, predisposition and causes of death
Skills: taking the family and social history, and documenting data
 5. Physical examination. The nature of pain
Skills: giving instructions and asking questions during the examination
 6. Diagnosis, referral for further tests
Skills: communicating the diagnosis, expressing the probability of the diagnosis, referral writing
 7. Midterm test. Types of drugs and therapeutic groups, indications and contraindications
Skills: understanding patient information leaflets; instructions on how to use drugs
 8. Emergency care, first aid
Skills: assessing the patient by using the ABCDE approach and reporting on patient condition based on the SBAR approach
 9. Laboratory tests (taking blood, glucose tolerance test, urine test, etc.)
Skills: writing referrals, interpreting laboratory findings; preparing the patient for examination, informing the patient
 10. Examining the patient with diagnostic devices
Skills: writing referrals, interpreting laboratory findings; describing test methods, preparing the patient for examination, informing the patient
 11. Surgical interventions, surgery
Skills: describing interventions and surgeries, preparing the patient for surgery, informing the patient
 12. Check-up, discharging the patient
Skills: writing discharge reports, advising patients
 13. End-of-term oral exam. Presentations

14. Closing the term. Evaluating the term

Related subjects due to interdisciplinary fields (both compulsory and elective) and potential overlaps between subjects:

Attendance requirements; conditions under which students can make up for absences and the method of absence justification:

A maximum 3,5 absences are allowed i.e. 7x45 minutes of absence are allowed ; if the number of absences exceeds this, the student must make up the missed classes. A student who misses more than 25% of the seminars will not be allowed to get a signature (Study and Examination Regulations §29). According to the Study and Examination Regulations (§ 28), three tardies count as one absence. Arriving 15 minutes later than the start of the class counts as one tardy.

Form of assessment in the study period:

(including the number, topics and scheduling of oral and written tests, their share in the overall evaluation, make-up tests and improvement tests)
Written mid-term (week 7, Topics: week 1-6); end-of-term oral test (week 13 and 14 , Topics: week: 1-13)
The evaluation of student performance is based on the marks received for the 2 tests.

1-49%= 1 (fail)
50–60% = 2 (pass)
61–75% = 3 (satisfactory)
76–89% = 4 (good)
90–100% = 5 (excellent)

Number and type of assignments for individual work and the deadline for submission:

Requirements to obtain the teacher's signature:

Taking the written and oral tests, and class attendance . . .
A maximum of absences is 7x45 minutes); if the number of absences exceeds this, the student may make up missed classes once in a while. A student who misses more than 25% of the practical classes will not be allowed to get a signature (Study and Examination Regulations §29).

Type of assessment (*comprehensive examination, end-term examination, term-grade, term-grade on a three-grade rating scale, no exam*)
term grade

Examination requirements:

(*list of examination topics, subject areas of tests / examinations, lists of mandatory parameters, figures, concepts and calculations, practical work*)

Method and type of grading:

(*Share of theoretical and practical examinations in the overall evaluation. Inclusion of the results of the end-of-term assessment. Possibility of re-examination*)

The evaluation of student performance is based on the marks received for the 2 tests. The result of the written test makes up the 40% of the term grade and the result of the oral test makes up 60% of the term grade.

Student performance is assessed as follows:

0–49% = 1 (fail)
50–60% = 2 (pass)
61–75% = 3 (satisfactory)
76–89% = 4 (good)
90–100% = 5 (excellent)

List of course books, textbooks, study aids and literature facilitating the acquisition of knowledge to complete the course and in-depth study (topic) as well as a list of important technical and other applicable study aids:

Authentic material compiled by the Department of Languages for Specific Purposes.
E-learning materials on moodle.

Signature of habilitated instructor (course coordinator) announcing the course:

Signature of the director of the host institution:

Date of submission: April 30,2023
