		11141.	T		G 11.	
Title of the subject in English: Title of the subject in Hungari		Healthcare Terminology Credit number: 2  Egészségügyi Terminológia				
Neptun code:	1411.	EBTAADAPNY09A				
Category: Distribution of theory and practice, 'educational ch		compulsory		practice oriented (60-70%)		
Type of class:	actice, educational cr	lecture	seminar	practice in lab.	clinical practice	tutorial
Number of classes:			24		·	
Language(s) of instruction oth	ner than Hungarian:	English				
Further applicable methods to knowledge to students:	o transfer the given	language learning tasks, linguisti	c analysis, vocabulary	acquisition, practice,	word formation	
Accepted absences:		6x 45 minutes				
		Attendance at the classes (/5% minimum), taking the 2 written tests, making up				
Requirements of end-term signature:		the material of the missed classes.				
Form of end-term assessment:		The term grade is calculated based on the two term tests, where the first test counts for 30%, the practical mark final (second) test for 70% of the final term grade.				
FOLIH OF CHU-TELIH ASSESSMENT:		The tests ask the material covered in classes - the 1st test units 1-5, the 2nd test units 1-10				
Schedule of assessment:		lessons 11-12 and 23-24				
Further applicable methods of knowledge						
assessment:		vocabulary tests (vocabulary test	s for providing feedba	ck on students)		
Possibility and requirement(s) of an offered grade:				no		
How many semesters long is the subject?		1				
Subject's place in the curriculum:		2		_		
Frequency of announcement:		In accordance of Section 21 of the SER				
Place in the timetable:		In accordance with the data of the Neptun Education System				
Requirement(s) of preliminary studies:		Medical Latin EBTAADGYNY	16A			
requirement(s) of premimary studies:						
The standpoint of the responsible department whether a multi-semester subject can be registered						
without having completed the	without having completed the prerequisite of the					
same subject in the previous s		hiaat				
Aim of acquiring the profession By developing an awareness in inte	erpreting and formulating	physiological and diagnostic term		•		
sciences, which greatly supports the subjects in a more effective way.	eir studies. They acquire	the meaning of anatomical, diagno	ostic, and physiologica	al terms, which provide	es them with the possil	pility to study health care related
Subject description: textual lis	st of topics of the the	oretical and practical classes				
Students learn the correct pronuncia	ation and orthography of	medical terms, and they get acqua				
word formation (with special emph of Anatomy classes. The body syste	ems discussed on the Ana	atomy classes are looked at from a	linguistic point of vie	w based on the skills		
obtained at the classes of Medical I in focus. These systems are: the ora	1					
sensory organs and the skin. Unit 1 The Oral Cavity- The first b	it					
Unit 2 The respiratory system- take Unit 3 The Cardiovascular system						Unit 4
The Digestive System						Unit 5 The Urinary
