

Title of the subject in English:	Healthcare Terminology			Credit number:	2
Title of the subject in Hungarian:	Egészségügyi terminológia				
Neptun code:	EBTMADAPNY09A				
Category:	compulsory				
Distribution of theory and practice, 'educational character':	theory oriented (60-70%)				
Type of class:	lecture	seminar	practice	tutorial	
Number of classes:		24			
Language(s) of instruction other than Hungarian:					
Further applicable methods to transfer the given knowledge to students:	Linguistic exercises, linguistic analysis, vocabulary-learning techniques, translation				
Accepted absences:	6x45 min. Students do not need to make up missed classes, but they can ask for a make-up in another group of the teacher.				
Requirements of end-term signature:	taking the 2 tests				
Form of end-term assessment:	The term grade is calculated based on the two term tests, where the first test counts for 30%, the final (second) test for 70% of the final term grade. The tests are based on the material covered in classes			Method of end-term assessment:	practical mark
Schedule of assessment:	weeks 7 and 12				
Further applicable methods of knowledge assessment:	quizzes, vocabulary tests (optional) - the teacher of the group decides on the time of these assessments				
How many semesters long is the subject?	1				
Subject's place in the curriculum:	2				
Frequency of announcement:	In accordance of Section 21 of the SER				
Place in the timetable:	In accordance with the data of the Neptun Education System				
Requirement(s) of preliminary studies:	EBTMADAPNY17A				

Aim of acquiring the professional content of the subject:

The basics of Medical Latin acquired in the autumn semester are necessary to study Healthcare Terminology. Building on these Latin grounds we get familiarised with the Greek and Latin terms used in diagnostics. We focus on word-formation with the help of Greek combining forms, agreeing Latin adjectives to Greek words, and building Latin diagnostic and pharmacological vocabulary.

Subject description: textual list of topics of the theoretical and practical classes

week 1 - revision of anatomical phrases
week 2 - the language of diagnoses, prepositional phrases, abbreviations
week 3 - Greek word formation, the agreement of adjectives to Greek diagnostic terms
week 4 - orthopaedic, musculoskeletal diagnoses
week 5 - cardiological diagnoses
week 6 - pulmonological diagnoses
week 7 - test 1
week 8- gastroenterological diagnoses
week 9 -gynaecological, urological diagnoses
week 10 - dermatological, ophthalmological diagnoses
week 11 - revision
week 12 - test 2

2-5 most important compulsory and recommended readings with bibliographical data:
