<b>Place in the timetable:</b>	In accordance with the data of the Neptun Education System		
<b>Requirement(s) of preliminary studies:</b>			

**Aim of acquiring the professional content of the subject:**  
The aim of the subject is to help students acquire the basics of Medical Latin necessary for their healthcare practice. Medical Latin provides a solid foundation to understanding the vocabulary of their professional subjects by students' gaining practice in the etymological analysis of terms. A further aim of the subject is to familiarise students with the nomenclature of Anatomy and Physiology, as well as the terms and basic grammar needed for every healthcare practice.

**Subject description: textual list of topics of the theoretical and practical classes**  
week 1 - anatomical nouns, vocabulary building (based on the 1st semester of Anatomy)  
week 2 - the dictionary form of anatomical nouns  
week 3 - possessive phrases in the anatomical nomenclature  
week 4 - plural phrases in the anatomical nomenclature  
week 5 - adjectives in the anatomical nomenclature (dictionary form and agreement)  
week 6 - practice of adjectives, with the inclusion of possessive and plural phrases  
week 7 - test 1  
week 8 - revision of grammatical structures in anatomical phrases, vocabulary building (based on the 2nd semester of Anatomy)  
weeks 9-10 - forming anatomical adjectives  
week 11 - possessive and adjectival phrases in the anatomical nomenclature  
week 12 - test 2
