The objective of the course in realizing the aim of training:

The aim of the course is to get students from level B1 to level B2 communication using terminology; to deepen students' special knowledge.

Short description of the course:

The course prepares students for situations that occur during their pharmaceutical job, in which professional language using special terminology is required. The course provides pharmaceutical terminology within special situations such as requesting information on patients' complaints during drug dispensing, forming instructions, informing patients and about basic documentation. Students acquire language skills through communication situations. The course is built upon authentic conversation using specific terminology, written / spoken terminology panels and special documentation using terminology.
