

# **The publication requirements for the participants of XVII Burdenko International Scientific Conference**

To participate in the conference, you must submit an article **by February 15, 2021**.

The results of the research have to be filled online

<https://forms.gle/ZSfHY3ysrRiAsh2Z9>

Only students should be authors of the scientific research.

The page count should be no more than 5 pages.

## **I. The title**

The title should fully express the main idea and aim of the research.

## **II. Authors**

J. Watson, I. Sinnen

## **III. Organization**

University and department, where the research was held.

## **IV. Brief summary**

150-350 words

*Relevance, the research objective, methods, results, conclusion*

## **V. Key words**

Term 1; term 2; term 3.

You can write 3-7 key words, which should show the main topic of the research.

## **VI. Relevance**

## **VII. The research objective**

## **VIII. Methods**

*1. Design of research*

*2. Compliance criteria*

*3. Modalities of the research*

*4. Duration of research*

*5. Description of the medical intervention (by yourself)*

*6. The main outcome of research*

*7. Additional outcome of research*

*8. Analysis in subgroups*

*9. Registration methods of outcome*

*10. Statistical analysis*

**Principles of selection calculating:** describe the procedure of selection calculating or provide an other support of sample size (if any). Without such grounds indicate that the size of sample wasn't calculated.

**Methods of statistical analysis of data:** a) indicate statistical programmers package which used to analysis of research results (developer, country of origin); b) note the format of the quantitative data presentation; c) describe the statistical criteria used in data analysis.

## **IX. The results and discussion**

**Study objects, main results of the research, indirect results, adverse effects.**

## **X. Conclusion**

The conclusion should be presented as a single text rather than as numbered conclusions.

## **XI. Reference list**

Only published materials are listed in the literature list (links to Internet resources are allowed). Self-citation should be avoided, except where it appears necessary (e.g., if there are no other sources of information, or this work has been done on the basis or in the continuation of the cited studies). Self-citation is desirable to limit 2 references.

### **Rules for the registration of the articles of literature**

1. In the list of literature, all works are listed in the order of quoting, and NOT in alphabetical order.
2. Number of cited works: No more than 10 sources.
3. In the text of the article, bibliographic references are given in square brackets by Arabic numerals.
4. The authors of the cited sources in the literature list should be indicated in the same order as in the source (in case the publication has more than 4 authors, then after the 3rd author it is necessary to set a abbreviation "... , etc" or "..., et al.").
5. The short format of the entry, for foreign sources, should be used to describe the date of release, volume, journal number and pages on which the article is published.

### **XII. Author details**

Information about every author of the research.

[The author responsible for the correspondence:](#)

**Last Name first name Middle name; address: (Postal address with index) [address: ]; phone number : (your phone number); ORCID: <http://orcid.org/XXXX-XXXX-XXXX-XXXX>;e-mail: [example@address.ru](mailto:example@address.ru)**

Co-author:

**Last Name first name Middle name; ORCID: <http://orcid.org/XXXX-XXXX-XXXX-XXXX>; e-mail: [example@address.ru](mailto:example@address.ru)**

**ORCID: <https://orcid.org/>**

The completed article template should be saved to the computer and the log site loaded.
