

*250 years of EXCELLENCE  
in medical education, research  
& innovation and healthcare*

**SEMMELWEIS UNIVERSITY**

**Department of Transplantation and Surgery**

*Director: Prof. László Kóbori*

Dear Students,

as you are aware of the current pandemic, the education moves to the online platforms.

The summary of the lectures, delivered our Department, are on the <https://itc.semmelweis.hu/moodle/> website. You have to join to the online presentations here, too.

Theoretical lectures and case presentations will be provided via that way. However it is impossible to have clinical practice online, therefore the practices will be provided later.

All relevant informations, e.g. topic list, the schedule will be provided here. The dates and way of the exam is under deveopement.

Groups TX 7-8 and TX 1-2 are the groups of the Department of Transplantation and Surgery.

Please check regularly the above mentioned website for the most recent information.

Dr. G. Telkes

in charge for the English program

Budapest, 2020 March 25.
